# Online WHMIS Training

Danatec's WHMIS online training (formerly known as WHMIS 2015) centres around 5 WHMIS stories, which bring in real life events, told by real people in real workplaces. The video, animations, engaging games and skill building exercises will make for an engaging interactive learning experience. Our course centres on elements that ensure the information is understood, retained and easily resourced.

A final exam to complete the course and a printable certificate along with a shareable Digital Badge is issued upon completion. Free printable resources are included such as our WHMIS sample label, poster, sample SDS, glossary and a workplace exercise sheet for additional training.

## Course Features:

- Industry recognized, printable WHMIS certificate
- Live support Monday-Friday, 7am to 5pm MST
- Interesting and engaging learning content created by industry experts
- Same day certification, begin your training in minutes
- Stop and go at your convenience
- Printable resources for easy reference and use
- Mobile/Tablet compatible
- Easily accessible – stored record of training that can be shared if needed for auditing purposes or proof of certification
- Shareable Digital Badge
